

Every dress we make starts with your measurements.

Our philosophy is dedicated to women that want to dress comfortably while evoking the spirit of timeless elegance. Brides choose EO by Estanislao because they want a care-free day - in a dress that is both easy to wear and simply beautiful in it's quality.

Radiate style, feel confident and look gorgeous in a dress that fits you like a glove! Tailored elegance.

Our dresses are made to measure by skilled seamstresses who personally put their individual touch on each dress, all under the careful supervision of the designer, Estanislao.

All appointments are free and without compromise!

Photo galleries of our wedding dresses and bridal gowns

In our studio we have more than 40 samples that are not shown in photographs on our website. We prefer to give you more exclusivity and concentrate on quality fabrics rather than expensive photo shoots. We help make every woman look their best, regardless of their shape or size. Guaranteed!
